Subject Management Planner

Rich,

The Management Planner and the 3 year reinspection are in the custodial supervisor office at the Colonial Elementary School. I was lucky enough to find the training you suggested at Access Training School in Merchantville NJ. I have taken the course and successfully completed it. At present time I am working on the deviations described in your "Summary of Observations" and plan to have all the issues cleaned up in the near future. Thank you for your help and information.

George
